4 Years Ago: 2014 - 2015	\$	\$	\$	\$

CPVC - INSTALLATION & SERVICE PRACTICES

CURE TIME: Risk Suppression Partners LLC (RSP) requires the practice of 24-HR Cure Time or the use of CPVC listed fittings which do not require solvent-cement. The elements of time, temperature, humidity and pipe size can all affect cure-times and it is a best practice to allow extended cure-times, especially when performing service work and cutting into existing systems.

DRY FITS: agrees to have a "no dry-fit" policy, aimed to reduce the chance of loss based on made up joints missing a solvent-cement connection.

COMPATIBILITY: RSP recommends that awareness of the potential for compatibility based failures be made on all job sights for which CPVC is to be installed. *Most manufacturers provide notices that can be used.

By initialing below the submitter of this application warrants the above statements regarding CPVC have been reviewed and acknowledged by the named insured listed on this application.

Initials: **YES - above statements have been reviewed**

SUBMISSION FILES - REQUIRED

If Submitting Excess please include all applicable Loss Runs & ACORD Forms
